

LEARN-BUILD-SAVE HOME ENERGY ANALYSIS

An Eight-Home Energy Analysis Exploration: What We Found and How YOU Can Benefit

Wednesday, May 26th, 5:00 – 7:00 PM

The Ludwig Community Center
864 Santa Rosa Street, SLO

Doors open at 5:00, presentation begins at 5:30.

Homeowners - want to learn how to reduce your home energy use? We have the answer! In this fascinating and informative exploration, we'll present the findings from the *PG&E-sponsored SLO Green Sweepstakes 8-Home Energy Analysis*

Gain Tips to Make Your Home More Efficient

We'll suggest how each of the 8 ordinary homes throughout the County can become more energy efficient, comfortable and durable, and what you can look for in your own home.

Get Secrets From the Pros

We'll explain how a home energy analysis works.

Make Your Home Safer

We'll show you how dangerous poorly installed and maintained systems in your home can actually be.

Meet the Presenter:

Presenter Neal Sitek moved to San Luis Obispo after graduating from UC Berkeley in 1980. In 2008, he began training in energy-related topics, focusing on residential and commercial building science. Neal has completed Home Performance with Energy Star contractor training with the California Building Performance Contractors Association. He is a certified BPI Building Analyst and a CHEERS existing home HERS rater. Neal is currently active in residential building performance evaluation and home energy inspection.

Bonus:

We'll give an update on the County's Green Building Ordinance, Home Star and other incentive programs, rebates and ways to finance energy retrofits.

Suggested \$5 donation at the door.
