

Learn Build Save

The Learn Build Save lecture series is an ongoing series of public educational workshops held quarterly in various locations throughout SLO County, featuring topics that are directly relevant to the Central Coast's sustainably-minded building professionals and homeowners.

FAMILY HEALTH AND THE HOME

HOW THE HOME ENVIRONMENT AFFECTS OUR LIVES

Join us for a discussion of how the indoor air quality of a home affects the health of the entire family, and what steps can be taken to make homes healthier places to live and breathe in. Topics covered include the health consequences of poor air quality, how to test air quality, options in interior design and household materials to improve air quality for both renters and homeowners on a range of budgets, and methods for directly improving air quality.

Speakers include **Bill Hayward** of Hayward Lumber, **Claudia Worthen** of EcoPlanners, **Dr. Zoe Wells**, ND, and **Lauren Bell** of GLO-BELL Consulting.

Monday February 27 6:00 – 7:30 PM

- Socializing and appetizers from 5:00 - 6:00 PM
- Allergy friendly treats provided by Sweet Alexis
- Lecture kicked off with a brief performance by the children of Dance Obispo

Located at the SLO City/County Library Community Room

- 995 Palm Street, at the corner of Osos

Attendees are entered in a raffle to win an AirLab air quality testing kit!

All are welcome to attend
